			५) Library Advisory Committee		
			६) Maintenance Committee		

अधिक माहिती criticism VI

७) Scholarship Committee  
८) Electrol Literacy Club.

२. सदर घेतलेल्या कार्यक्रमाची प्रत नियतकालीक विभाग प्रमुखाकडे दिली.

Yes, Submitted.

३. शोध निबंध (प्रकाशन/दिनांक/अंकाचे नांव :- अ UGC Conclst - One Research Paper - Profitability Analysis of Fertilizer Unit of Solapur District.

४. प्रशिक्षण सहभाग (कोर्सचे नांव /कालावधी व संस्थेचे नांव):- Refresher Course at Pondicherry University  
(तासाची पर्यायी व्यवस्था) कालावधी Yes,

५. महाविद्यालयाच्या विकासासाठी स्वतः उल्लेखनिय विशेष काम केले असल्यास तपशील

Yes, Various works done of Competitive Exam Cell

६. वार्षिक घेतलेल्या एकूण रजेचा तपशील Inauguration, & Regular lectures of Expert.

किरकोळ रजा			कर्तव्य रजा			वैद्यकीय रजा			अर्जित रजा	
एकूण	मंजूर	नाही	एकूण	मंजूर	नाही	एकूण	मंजूर	नाही	मंजूर	नाही
०४	Yes	-	३२	Yes	-	०४	Yes	-	-	-

\* given extra time on present body time at college (morning & Afternoon) level

कर्तव्य रजेवर गेले असल्यास सविस्तर (कामाचा आढावा) तपशील जोडावा.

- \* One Day Workshop on NEP 2020 - MIT, College, Talandi.
- \* One Day Workshop on NEP 2020 - AT College, Bhone (प्राचार्यांचा अभिप्राय)
- \* Two Weeks Refresher Course in Commerce & B Studies at UGC-MMTTC Pondicherry University, Pondicherry
- \* Submission of IQAE - Criticism - VI

Publications - 1, One International Book Published.  
2, Two chapter in Edited Books at National level.

७. आपण इतर कार्यक्रम घेतला असल्यास / सहभाग घेतला असल्यास तपशील जोडावा :  
(1, BitCoin & Cryptocurrency & Research Methodology) ←  
(कार्यक्रमाचे नाव, फोटो, व अहवाल जोडावा, बासमी, सहभागी संस्था तपशील जोडावा)

- Yes, organised four workshops through SDB,

- All five Documents were submitted to necessary Department of our college

८. विशेष कार्यक्रम  
- Two Invited Lectures as resource person at N.S.S.

९. इतर कामात सहभाग :- winter camp in two college,

Exam work - at SPPU, Pune - 1, Paper setter as a Chairman in

1) Super-<sup>दिनांक :-</sup>vision work

the subject Advanced Accounting

2) CAP. of SY/T Exam,

3) Practical work at college,

शाखा प्रमुख / विभाग प्रमुखांची स्वाक्षरी

Date - 1st June 2024. (Info)

प्राचार्यांचा अभिप्राय

(Dr. Manoj Bapu Kadam)

	प्राचार्यांचा अभिप्राय	उत्कृष्ट	चांगला	साधारण	असमाधानकारक
१	समित्याचे काम (चेअरमन)	✓			
२	सदस्य म्हणून काम		✓		
३	शोध निबंध	✓			
४	प्रशिक्षण सहभाग	✓			
५	विकास काम सहभाग	✓			
६	रजे संबधी	✓			
७	इतर कामकाज	✓

## 14. Sources of Data Collection for Research

**Dr. Vijay B. Kadam**

Department of Commerce  
Amrut Eshwar Arts, Commerce & Science College,  
Vinzar (Vehle) Pune.

### 14.1 Introduction:

Data and Data collection includes methods used to gather information on specific variables critical to a study, essential for analysing data to derive results, answer research questions, or test hypotheses. This stage is pivotal in research as it directly influences result quality by minimizing errors. Hence, alongside a well-designed study, dedicating sufficient quality time to data collection is crucial for ensuring accuracy and reliability of findings. Insufficient or inaccurate data undermines the study's credibility. While selecting an appropriate data collection method is vital for planning successful research, it alone does not guarantee overall project success. Effective data collection and utilization are foundational to successful research. This chapter explores diverse data sources, clarifying their roles, characteristics, and implications across various fields. Primary sources involve first-hand data from methods like surveys, interviews, experiments, and observations, offering direct insights. Secondary sources include existing data such as scholarly articles, government reports, and archival records, providing context and broader perspectives. Navigating these sources demands consideration of reliability, validity, accessibility, and ethical concerns. Researchers must strategically integrate these sources to ensure robust and credible findings. By understanding and leveraging these data sources, researchers enhance their ability to conduct rigorous and impactful research in their fields.

### 14.2 Data:

Data collection, a critical stage in research, can greatly influence the quality of results by minimizing potential errors. Therefore, in addition to a well-designed study, considerable time and effort must be devoted to data collection to ensure accurate results. Insufficient or inaccurate data can undermine the reliability of findings. However, while an appropriate data collection method is crucial for planning effective research, it does not guarantee the overall success of the project. The information gathered expressed as figures or facts and used for various calculations to address the study question or test hypotheses is known as data. Data can be categorized in different ways, including quantitative and qualitative.

### 14.3 Qualitative Data:

Qualitative data, expressed in words or sentences, encompasses nominal and descriptive information that defies numerical representation. This type of data addresses "how" and "why" questions in research, focusing on subjective aspects such as emotions and perceptions through methods like interviews, audiotapes, sketches, notes, and photographs. While qualitative data enriches understanding and enhances the quality of quantitative

### *Research Methodology*

results, it is resource-intensive and its findings may lack generalizability beyond specific contexts. Case studies, observations, document reviews, and in-depth interviews are primary qualitative methods, complemented by lesser-known approaches.

#### **14.4 Quantitative Data:**

Quantitative data involves measurable information expressed numerically, facilitating statistical analysis to quantify variables. It answers "what," "where," and "when" questions, yielding objective and precise results suitable for comparisons. Common methods for collecting quantitative data include surveys, experiments, and structured observations, employing instruments like questionnaires and sensors. It categorizes into discrete data (countable items) and continuous data (measurements on a scale), enabling pattern identification, hypothesis testing, and prediction. Quantitative data's strength lies in its ability to generalize findings to broader populations, ensuring research outcomes' robustness and replicability.

#### **14.5 Need of Data:**

Data is essential for research as it provides the factual basis needed to explore, analyse, and draw conclusions about a study's focus. Accurate and comprehensive data enables researchers to test hypotheses, answer research questions, and identify patterns or relationships. It facilitates informed decision-making and supports the development of evidence-based conclusions.

Quantitative data allows for statistical analysis and generalization of findings, while qualitative data provides in-depth insights into complex issues. Reliable data collection and analysis enhance the validity and credibility of research outcomes. Furthermore, data aids in replicating studies, ensuring consistency and robustness of results across different contexts. Ultimately, data is the cornerstone of rigorous and impactful research, driving advancements and innovation across various fields.

#### **14.6 Sources of Data:**

The data are collected through the following ways:

- a. **Primary Sources:** This involves gathering new, original data directly from the source. Methods include surveys, interviews, experiments, observations, and focus groups. Primary data is tailored to the specific needs of the research, ensuring its relevance and accuracy.
- b. **Secondary Sources:** This involves using existing data that was collected for other purposes. Methods include analysing reports, academic papers, government publications, historical records, and online databases. Secondary data is cost-effective and time-saving but may not be perfectly aligned with the research's specific needs.

Both sources are essential in research, with primary sources providing specific, first-hand information and secondary sources offering context and background.

### *Research Methodology*

They are versatile for exploring a wide range of topics and can provide statistically significant results when the sample is representative and the questions are carefully designed.

#### **E. Case Studies:**

Case studies involve in-depth analysis of a specific instance, event, or phenomenon within its real-life context. Researchers gather qualitative data through various methods such as interviews, observations, and document analysis to explore the complexities and intricacies of the case. Case studies are valuable for understanding unique situations, behaviors, and outcomes in detail. They provide rich, detailed insights that can contribute to theory development or inform practical applications in fields such as psychology, sociology, and business management.

#### **F. Diaries:**

Diaries in research are personal records where individuals document their experiences, thoughts, or activities over a period. Researchers use diaries as a qualitative data collection method to gain insights into daily routines, emotions, and personal reflections. Diaries can provide rich, detailed information about participants' perspectives and behaviors in their natural context.

This method allows for longitudinal studies, capturing changes over time, and offers a deep understanding of individual experiences that may not be easily captured through other means like interviews or surveys.

#### **G. Activity sampling technique:**

Activity sampling technique involves randomly observing and recording activities at specific time intervals. It provides insights into how individuals allocate their time and resources. This method is useful for studying work patterns, productivity, and behavior in various contexts without continuous observation, offering a snapshot of daily activities.

#### **H. Memo:**

Memos in research are brief notes or records used to capture observations, thoughts, or ideas during the research process. They serve as informal documentation to aid in data analysis, reflection, and decision-making. Memos help researchers organize and interpret qualitative data effectively.

#### **I. Motion study:**

Motion study is a systematic analysis of physical movements within tasks or processes. It aims to optimize efficiency, reduce waste, and improve productivity by examining the sequence and duration of actions. Motion study is commonly used in industrial engineering and manufacturing to streamline operations and enhance workflow.

*Research Methodology*

#### **14.10 Sources of Secondary Data:**

##### **A. Published Documents:**

Published Documents encompass books, scholarly journals, reports, and periodicals that undergo editorial review and are widely distributed.

They serve as authoritative sources of information across academic, professional, and public domains, offering comprehensive insights and data-backed analyses on diverse subjects.

##### **B. Unpublished Documents:**

Unpublished Documents include theses, dissertations, conference papers, and internal reports not formally published. Often housed in institutional repositories, they provide original research findings, detailed analyses, and specialized knowledge that contribute to scholarly research and academic discourse.

##### **C. Government Publications:**

Government Publications official documents issued by government agencies include statistical data, policy reports, legislative texts, and public records. They serve as primary sources for research, policy formulation, and public information, offering insights into governance, demographics, economics, and public services.

##### **D. International Organizations Reports:**

International Organizations Reports from global entities like the United Nations (UN), World Bank, and WHO provide analyses, data, and policy recommendations on international issues such as development, health, and human rights. They inform global policies, research agendas, and advocacy efforts worldwide.

##### **E. Private Sector Data:**

Private Sector Data This category encompasses market research reports, financial statements, proprietary databases, and industry analyses produced by private companies. Private sector data provides insights into market trends, consumer behavior, and industry performance, supporting strategic decision-making and business planning.

##### **F. Print Media Sources:**

Print Media Sources such as newspapers, magazines, and journals deliver news, opinions, and feature articles on current events, politics, culture, and economics.

They play a vital role in shaping public opinion, providing in-depth analysis, and documenting societal changes.

## PROFITABILITY ANALYSIS OF FERTILIZER UNITS OF SOLAPUR DISTRICT

**Dr. Vijay B. Kadam**

(M. Com., NET, B.Ed., M.Phil. & Ph.D.: Accountancy) Head of Cost & Works Accounting, Department of Commerce, Amruteshwar Arts, Commerce & Science College, Vinzar (Vehle) Pune. Savitribai Phule Pune University (SPPU), Pune, Maharashtra

### Abstract

The Paper has focused on analysis and interpretation of profitability of the fertilizer units in Solapur District. For that purpose, this paper is divided into two parts, first on Gross Profit and second part on Gross profit ratio is profitability ratio and it also known as gross margin ratio. The net profit is that portion of net revenue which is available to the proprietors Profitability indicates and measures the performances in form of overall efficiency of the Fertilizer Units.

**Keywords:** Fertilizer Units, Profitability, Gross Profit Ratio, Net Profit Ratio and Conclusion

### Introduction

In this research paper has used the profitability concept for analysis and interpretation of data for selected fertilizer units in study area that is Solapur District. Profitability is the main tool generally used by the researcher for evaluating an organisation. Profitability indicates and measures the performances in form of overall efficiency of the business. The profits is known as excess of incomes over its expenses for a given period. The following are important profitability ratio:

- A) **On the basis of sales profitability ratio are** 1. Gross Profit Ratio, 2. Net Profit Ratio, 3. Operating Profit Ratio, 4. Operating Ratio and 5. Various Expenses Ratio.
- B) **On the basis of return on investments, profitability ratio are** 1. Return on Total Assets, 2. Return on Capital Employed, 3. Return on Equity, Earnings PerShare and 5. Earnings Per Dividend.

For analysis and interpretation of profitability of the selected fertilizer units in the study area, researcher has used two ratios based on sales which are 1. Gross Profit Ratio (GPR) and 2. Net Profit Ratio (NPR)

### Analysis & Interpretations of Gross Profit Ratio (GPR)

Gross profit ratio is profitability ratio and it also known as 'gross margin ratio' or 'gross profit rate'. Gross profit ratio is calculated as gross profit divided by net sales into hundred and it is expressed in percentage. As for as gross profit ratio is concern, there are three important elements that is net sales, cost of goods sold and gross profit. Gross margin is the profit calculated on sales or turnover. It can be defined as the excess of sales volume over cost of goods sold. Cost of goods sold is the total cost of materials, labour and various

overheads. The net sales means that gross sales minus sales return. In short, gross profit ratio shows a relationship between gross margin and net sales volume.

**Formula of Gross Profit Ratio :**

$$\text{Gross Profit Ratio (GPR)} = \frac{\text{Gross Profit}}{\text{Net Sales}} \times 100$$

**Important terms are to be used for calculating Gross Profit Ratio**

1. Gross Profit = Net Sales – Cost of Goods Sold.
2. Net Sales = Gross Sales – Less Sales Return or Return Inward – Allowances.
3. Cost of Goods Sold = Opening Stock + Net Purchases + Direct Expenses & Production Expenses – Closing Stock.

OR

$$= \text{Sales} - \text{Gross Profit}$$

**High Gross Profit Ratio**

High gross profit ratio indicates that an organisation having efficiency on the sales, cost of control and inventory management. Other reasons for having high gross profit ratio could be under valuation of stock and efficient management policy and strategy.

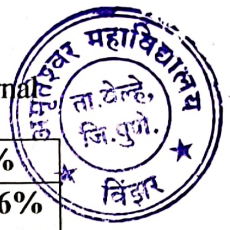

**Low Gross Profit Ratio**

Lower gross profit ratio indicates that an organisation not having efficiency on the sales, cost of control and inventory management. Other reasons for having low gross profit ratio could be over valuation of stock and inefficient management policy and strategy.

**Gross Profit Ratio of LMBTPLDS**

Chart No. – 2: Gross Profit Ratio of VF&SPLDS

The above numerical table no. 1 and graph no. 2 has shown Gross Profit Ratio (GPR) of **Vardhman Fertilizer & Seeds Private Limited, District Solapur**. The GPR in financial year 2012-2013 was 9.07%, in 2013-2014 was 22.03%, in 2014-2015 was 20.10%, in 2015-2016 was 19.41% and in 2016-2017 it was 12.55%. Total of GPR in five years was in 83.17%, arithmetic mean was 16.63%, standard deviation was 4.96% and coefficient variance it was 29%. In financial year 2013-2014 the GPR was highest and in 2012-2013 it was lower as compare to other years. The chart show that the green curve line of GPR went up in second year and there after it has decreases in all selecting financial years.

The average GPR of five years was 16.63% which is unsatisfactory. It means this fertilizer units was having ineffective sales management, cost of control, management strategy and policy and over valuation of stock.

Chart No. – 4  
Gross Profit Ratio of LMBTPLDS

The above statistical table no. 5.54 and diagram no. 5.54 has shown Gross Profit Ratio (GPR) of Lok Mangal Bio-Tech Private Limited, District Solapur (LMBTPLDS). The GPR in financial year 2012-2013 was 10.85%, in 2013-2014 was 29.05%, in 2014-2015 was 41.65%, in year 2015-2016 was 19.58% and 2016-2017 it was 60.20%. Total of GPR in five years was 161.33%, arithmetic mean was 32.27%, standard deviation was 17.31% and coefficient variance it was 53.65%. In financial year 2014-2015 the GPR was higher and in 2012-2013 it was lower as compare to other years. The chart show that the green curve line of GPR went up in all selected financial years except the fourth year hence, it has upward trend.

Lok Mangal Bio-Tech Private Limited, District Solapur's the average GPR of five years was 32.77% which is unsatisfactory. It means this fertilizer units was having ineffective sales management, cost of control, management strategy and policy and over valuation of stock.

#### Analysis & Interpretations of Net Profit Ratio (NPR)

The researcher has considered another profitability ratio that is Net Profit Ratio (NPR) for the purpose of measuring profitability and analysing and interpreting the secondary data of selected fertilizer units in research area. The net profit is that portion of net revenue which is available to the proprietors or stakeholders after meeting all costs, charges and indirect

expenses including income tax. Net profit ratio also known as 'Margin on Sales Ratio' or 'Net Margin Ratio'. Net profit ratio is the association amongst net profit after tax to net sales and it's generally expressed in percentage. Net profit ratio measures the overall profitability of the units and it is calculated as under :

### Formula of Net Profit Ratio (NPR)

$$\text{Net Profit Ratio (NPR)} = \frac{\text{Net Profit After Taxes}}{\text{Net Sales}} \times 100$$

### Important terms are to be used for calculating Net Profit Ratio

1. Net Profit = Gross profit + Non-Operating Income – All Indirect Expenses & Overheads – Non-Operating Expenses & losses – Income Tax.
2. Net Sales = Gross Sales – Less Sales Return or Return Inward – Allowances.

### High Net Profit Ratio

High net profit ratio indicates that organisations profitability is satisfactory and always facilities higher returns to the stakeholders. It means that these organisation is having efficient management strategy, control over all indirect expenses, effective pricing policy and business strategies.

### Low Net Profit Ratio

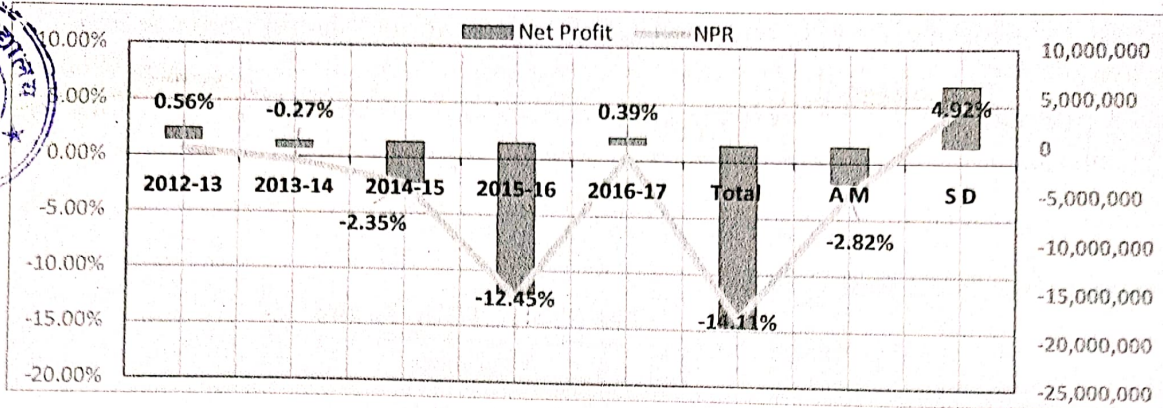

Low net profit ratio indicates that organisations profitability is unsatisfactory and unable to provide higher returns to the stakeholders. It means that these organisation having inefficient management strategy, no control over all indirect expenses, ineffective pricing policy and business strategies.

### Net Profit Ratio of LMBTPLDS

Table No. – 5: Net Profit Ratio of LMBTPLDS

Fertilizer Unit	Lokmangal Bio-Tech Pvt. Ltd.		
Financial Year	Net Profit	Net Sales	NP Ratio %
2012 - 2013	12,33,000	2189,98,000	0.56%
2013 - 2014	-7,30,900	2736,09,288	-0.27%
2014 - 2015	-42,41,773	1803,63,966	-2.35%
2015 - 2016	-157,49,023	1265,47,525	-12.45%
2016 - 2017	7,01,655	1806,88,558	0.39%
<b>Total of last 5 Years</b>	<b>-187,87,041</b>	<b>9802,07,337</b>	<b>-14.11%</b>
<b>Arithmetic Mean (A M)</b>	<b>-37,57,408</b>	<b>1960,41,467</b>	<b>-2.82%</b>
<b>Standard Derivation (S D)</b>	<b>62,92,545</b>	<b>486,92,244</b>	<b>4.92%</b>

Chart No. – 6: Net Profit Ratio of LMBTPLDS

The above numerical table no. 5 and diagram no. 6 has shown Net Profit Ratio (NPR) of Lok Mangal Bio-Tech Private Limited, District Solapur (LMBTPLDS). The NPR in financial year 2012-2013 was 0.56, in 2013-2014 was -0.27%, in 2014-2015 was -2.35%, in 2015-2016 was -12.45% and 2016-2017 it was 0.39%. Total of NPR in five years was 14.11%, AM was -2.82% and SD was 4.92%. In financial year 2012-2013 the NPR high and in 2015-2016 NPR was low as compare to other years. The chart show that the orange curve line of net profit ratio went down in all selected financial years hence it has downward trend.

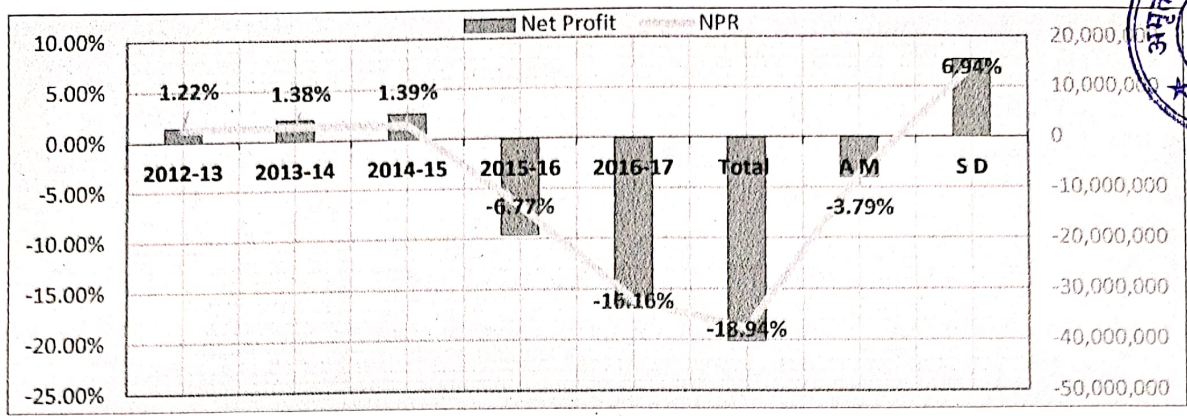

Lok Mangal Bio-Tech Private Limited, District Solapur's the average NPR of five years was -2.82% it indicates that this fertilizer unit's profitability is unsatisfactory and unable to provide higher returns to the stakeholders. It means that it's having inefficient management strategy, no control over all indirect expenses, ineffective pricing policy and business strategies.

#### Net Profit Ratio of VF&SPLDS

Table No. – 7: Net Profit Ratio of VF&SPLDS

Fertilizer Unit	Vardhaman Fertilizers & Seed Pvt. Ltd.		
	Net Profit	Net Sales	NP Ratio %
2012 - 2013	28,14,900	2298,86,000	1.22%
2013 - 2014	41,19,403	2994,93,495	1.38%
2014 - 2015	51,77,954	3731,28,356	1.39%
2015 - 2016	-193,01,931	2851,94,823	-6.77%
2016 - 2017	-331,67,429	2051,89,241	-16.16%
<b>Total of last 5 Years</b>	<b>-403,57,103</b>	<b>13928,91,915</b>	<b>-18.94%</b>
<b>Arithmetic Mean (A M)</b>	<b>-80,71,421</b>	<b>2785,78,383</b>	<b>-3.79%</b>
<b>Standard Derivation (S D)</b>	<b>154,82,946</b>	<b>586,13,703</b>	<b>6.94%</b>

Chart No. – 8: Net Profit Ratio of VF&SPLDS

The above arithmetical table no. 7 and graph no. 8 has shown Net Profit Ratio (NPR) of Vardhman Fertilizer & Seeds Private Limited, District Solapur (LMBTPLDS). The NPR in financial year 2012-2013 was 1.22, in 2013-2014 was 1.38%, in 2014-2015 was 1.39%, in year 2015-2016 was -6.77% and in 2016-2017 it was -18.94%. Total of NPR in five years was -16.16%, AM was -3.79% and SD it was 6.94%. In 2013-2014 the NPR high and in 2016-2017 NPR was low as compare to other years. The chart show that the orange curve line of net profit ratio went up in first three years and there after it went down in reaming financial years.

**Vardhman Fertilizer & Seeds Private Limited, District Solapur's the average NPR of five years was -3.79% it indicates that this fertilizer unit's profitability is unsatisfactory and unable to provide higher returns to the stakeholders. It means that it's having inefficient management strategy, no control over all indirect expenses, ineffective pricing policy and business strategies.**

**Conclusion**

Vardhman Fertilizer & Seeds Private Limited, District Solapur's the average GPR of five years was 16.63% which is unsatisfactory. It means this fertilizer units was having ineffective sales management, cost of control, management strategy and policy and over valuation of stock.

LokMangal Bio-Tech Private Limited, District Solapur's the average GPR of five years was 32.77% which is unsatisfactory. It means this fertilizer units was having ineffective sales management, cost of control, management strategy and policy and over valuation of stock.

Vardhman Fertilizer & Seeds Private Limited, District Solapur's the average NPR of five years was -3.79% it indicates that this fertilizer unit's profitability is unsatisfactory and unable to provide higher returns to the stakeholders. It means that it's having inefficient management strategy, no control over all indirect expenses, ineffective pricing policy and business strategies.

LokMangal Bio-Tech Private Limited, District Solapur's the average NPR of five years was -2.82% it indicates that this fertilizer unit's profitability is unsatisfactory and unable to provide higher returns to the stakeholders. It means that it's having inefficient management strategy, no control over all indirect expenses, ineffective pricing policy and business strategies.

## 1.1 Introduction:

The concept of Bitcoin originated in a whitepaper released in 2008 under the pseudonym Satoshi Nakamoto. It is a revolutionary advancement in the realm of digital currency and decentralized finance. Bitcoin emerged in the wake of the global financial crisis with the intention of upending the dominance of established banking institutions and offering a substitute peer-to-peer electronic currency system.

Fundamentally, Bitcoin is a decentralized digital currency that functions without the use of middlemen like banks or governments on a dispersed network of computers known as nodes. But this chapter explores the history of the idea behind Bitcoin, covering its definition, features, benefits, drawbacks, and prospects.

### A. Meaning:

The 2008, introduction of Bitcoin, the first cryptocurrency created by Satoshi Nakamoto, marked a paradigm shift in how people thought about money and financial systems. Fundamentally, Bitcoin is a peer-to-peer digital currency that is decentralized and runs on a peer-to-peer network, enabling direct transactions between people without the use of middlemen like banks or governments.

The importance of Bitcoin stems from its capacity to offer a substitute currency that defies centralized authority control, inflation, and censorship. Because it is decentralized, users can enjoy more financial autonomy and privacy. Transactions are recorded on the block-chain, a public ledger that is kept up to date by a dispersed network of nodes.

Beyond only serving as a means of payment, Bitcoin represents the values of decentralization, transparency, and security. Block-chain, the underlying technology of bitcoin, guarantees the immutability and integrity of transactions, allowing parties to deal without fear of being exposed. In conclusion, Bitcoin is more than simply digital money; it is a symbol of a decentralized financial revolution that upends the established order and gives people the ability to take charge of their financial futures.

## B. Definition:

“Bitcoin is a peer-to-peer digital currency that is decentralized and runs on a peer-to-peer network, enabling direct transactions between users and eliminating the need for middlemen like banks or governments”.

Bitcoin functions similarly to digital gold as a store of value”, This viewpoint highlights the limited availability of Bitcoin and its potential to protect capital in the long run. As a store of value, the coins' limited quantity of 21 million, along with their growing popularity and recognition, add to their value argument. Numerous analysts, investors, and organizations who see Bitcoin as a hedge against inflation and economic volatility agree with this concept.

Another way to characterize bitcoin is as “a worldwide payment network that makes transactions quick, safe, and affordable. Bitcoin has been used for a variety of payments, from online purchases to transfers, despite its volatility”.

The usefulness of Bitcoin as a medium of trade and its potential to upend established payment methods are highlighted in this definition. The fact that more and more companies and retailers around the globe are accepting Bitcoin lends credence to this viewpoint.

## 1.2 Characteristics:

### A. Dispersion of power:

Central authorities like as banks or governments are not necessary for Bitcoin's operation because it runs on a decentralized network of computers called nodes. The network is resistant to censorship and single points of failure because of its decentralized structure, which guarantees that no one entity has authority over it.

### B. The technology of block-chain:

The block-chain is a public ledger that records Bitcoin transactions. By cryptographically connecting blocks of transactions, distributed ledger technology guarantees security, immutability, and transparency.

### C. Limited Inventory:

Since there is a 21-million-coin maximum supply limit specified by the Bitcoin system, the cryptocurrency is a deflationary asset. The system is designed with this scarcity to resemble the characteristics of valuable commodities like gold.

Bitcoin

#### D. Safety:

Cryptographic algorithms and the proof-of-work decentralized consensus process guarantee the security of Bitcoin.

Because mining involves solving intricate mathematical riddles, miners compete to validate transactions and secure the network, making blockchain manipulation computationally expensive.

#### E. Being transparent:

On the Bitcoin blockchain, every transaction is open to public verification. The complete transaction history from the genesis block to the present can be viewed by everyone, offering a high degree of auditability and accountability.

#### F. Without borders:

Bitcoin transactions may be made between countries without the use of middlemen or currency conversion. Because of its international character, anybody with an internet connection can use Bitcoin, making it a truly global currency.

#### G. Constant Accessibility:

Because the Bitcoin network is always up and running, users are free to transact whenever they want. Bitcoin transactions can be started and verified at any time of day or night, unlike conventional banking systems that have set operating hours.

#### H. Divisibility:

Each bitcoin may be divided into smaller pieces known as satoshis, demonstrating the tremendous divisibility of bitcoin. Regardless of its price, Bitcoin's divisibility guarantees that it is still usable for regular transactions.

Together, these features strengthen Bitcoin's appeal as a decentralized digital currency and storage of value, giving users more financial freedom, privacy, and security when transacting with one another.

### 1.3 Advantages of Bitcoin:

As the original decentralized digital currency, Bitcoin has several benefits over conventional payment methods and banking structures. Here, we examine 12 of Bitcoin's main benefits.

## *Bitcoin and Cryptocurrency*

### **A. Decentralization:**

Without the assistance of centralized organizations like banks or governments, Bitcoin runs on a decentralized network of computers called nodes. Because of its decentralization, the network is immune to censorship and single points of failure since no one entity is able to exert control over it.

### **B. Financial Independence:**

Individuals have complete control over their money when using Bitcoin. There is more financial security and sovereignty because there are no middlemen or other parties that have the authority to freeze or seize money.

### **C. International Accessibility:**

Transactions using Bitcoin can be made between countries without the use of middlemen or currency conversion. Because it is accessible everywhere, Bitcoin is a truthfully borderless currency, available to everybody with an internet connection.

### **D. Minimal Transaction Costs:**

When compared to conventional banking structures, bitcoin transactions usually have reduced fees, particularly for international payments. Because of this, Bitcoin is a desirable choice for payments abroad and remittances.

### **E. Quick Transactions:**

Depending on network congestion, Bitcoin transactions are completed rather quickly—typically in a matter of minutes. Because of this, Bitcoin is appropriate for regular transactions and internet shopping.

### **F. Safety:**

Cryptographic algorithms and the proof-of-work decentralized consensus process guarantee the security of Bitcoin. It is challenging to tamper with transaction records because of the openness and immutability offered by the blockchain ledger.

### **G. Privacy:**

Users' identities are pseudonymous, but Bitcoin transactions are transparent and publicly verifiable. Instead, than using personal information to represent them, users are represented

Bitcoin

by cryptographic addresses, which offer some anonymity but also permit tracking on the block-chain.

#### **H. Limited availability:**

Because of its deflationary nature, Bitcoin has a maximum production limit of 21 million coins according to its protocol. In an attempt to replicate the qualities of valuable metals like gold, this scarcity is included in the system, possibly protecting value over time.

#### **I. The Inflation Risk:**

Bitcoin is sometimes seen as a hedge against inflation and economic instability because of its decentralized nature and limited availability. Because of this, investing in it is appealing, particularly in uncertain economic times.

#### **J. The process of diversification:**

A diversification potential beyond traditional asset classes such as equities, bonds, and real estate is provided by bitcoin to investors. Because of its minimal correlation to other categories of assets, portfolio risk can be reduced overall.

#### **K. The Inclusion of Finance:**

Bitcoin has the ability to offer financial services to people who are underbanked and unbanked globally. Anyone may join the Bitcoin network, no matter where they live or how much money they have, as long as they have access to the internet and a smartphone.

#### **L. Innovation in Technology:**

Blockchain, the underlying technology of Bitcoin, has sparked innovation in a number of sectors outside of finance, such as digital identity verification, voting systems, and supply chain administration. Blockchain technology's transparent and decentralized structure opens up new possibilities for enhancing effectiveness, openness, and trust across a range of applications.

#### **1.4 The drawbacks of Bitcoin:**

Notwithstanding its revolutionary potential, Bitcoin has a number of drawbacks that may prevent it from being widely used and adopted.

## *Bitcoin and Cryptocurrency*

### **A. The degree of volatility:**

The value of bitcoin is infamously erratic, subject to sudden and sharp price swings. Compared to other currencies, it is less dependable as a store of value due to its volatility, which puts investments at risk.

### **B. Restricted Expandability:**

During peak hours, the inability of the Bitcoin network to manage a high volume of transactions effectively results in congestion and higher transaction fees. The inability of Bitcoin to scale makes it impractical as a payment method for regular transactions.

### **C. Impact on the Environment:**

Energy is used extensively in the process of creating new bitcoins and validating transactions, which is known as bitcoin mining. The significant carbon footprint of Bitcoin mining exacerbates sustainability and environmental challenges.

### **D. Insufficient Regulation:**

Because Bitcoin is decentralized, it functions independently of established financial regulations. Users are exposed to dangers like fraud, security breaches, and a lack of consumer protections even though this gives them some liberty.

### **E. Risks to Security:**

Since bitcoin transactions are final once they are validated, they are vulnerable to theft, fraud, and hacking. Furthermore, money laundering and black-market transactions can be made easier by the anonymity of Bitcoin transactions.

### **F. Intricacy:**

A significant amount of technical competence is necessary to comprehend and use Bitcoin efficiently. It can be difficult for inexperienced users to manage Bitcoin wallets, secure private keys, and understand the complexities of blockchain technology, which hinders widespread adoption.

### **G. Restricted Approval:**

Even with its increasing popularity, Bitcoin is still not accepted as a payment method by everyone. Its utility for routine transactions and widespread adoption is limited by merchants' and enterprises' limited acceptance of it.

*Bitcoin*

## **H. Privacy Issues:**

Although pseudonymity is provided by Bitcoin, it is not completely anonymous. A public ledger is used to record transactions, enabling some traceability. Those who are worried about their financial anonymity might be discouraged by this lack of privacy.

## **1.5 Future of Bitcoin:**

With its growing recognition as a digital money and investment asset, Bitcoin may become even more widely used in the future. Technological developments like the Lightning Network, which address scalability issues, have the potential to improve Bitcoin's usability for regular transactions and increase its acceptance rate by both businesses and consumers.

However, Bitcoin's credibility and stability in financial markets may be enhanced by more transparent regulatory frameworks and increased institutional involvement, drawing in more capital and investors. But there are other difficulties with Bitcoin, including as scalability limitations, regulatory ambiguity, and environmental hazards with its energy usage. It will be essential for Bitcoin's long-term survival and prosperity to overcome these challenges. Along with continuous technological and infrastructure advancements, these obstacles may influence Bitcoin's future place in international banking as well as its ability to upend established financial institutions. Overall, the trajectory of Bitcoin points to a continued evolution towards increased use, usefulness, and integration into traditional financial institutions, even though concerns persist.

## **1.6 Conclusion:**

To sum up, Bitcoin is a revolutionary development in the field of digital currency; nevertheless, it also comes with a number of drawbacks and difficulties. Fundamentally, Bitcoin is a peer-to-peer network of decentralized digital money that facilitates safe and open transactions without the use of middlemen like banks or governments.

Among Bitcoin's benefits are its potential to promote inclusion and financial autonomy by giving the world's underbanked and unbanked population access to banking services. A lot of people find Bitcoin to be an appealing investment and store of value because of its limited supply and decentralized structure, which also provide security against inflation and governmental manipulation.

However, there are a number of drawbacks and difficulties with Bitcoin as well. Its instability puts investors and retailers at risk, and scalability problems make it impractical to use as a payment method for regular transactions. The popularity and acceptance of Bitcoin is further complicated by security flaws, unclear regulations, and environmental issues.

## NOTICE

S.Y. B.Com (Semester 5<sup>th</sup> & 6<sup>th</sup>)

PRACTICAL ORAL EXAMINATION – APRIL 2024

All the students of S. Y. B. Com. (Semester 5<sup>th</sup> & 6<sup>th</sup>) are hereby informed that the Practical Oral Exam - April 2024 in the subject of Business Communication Paper 1<sup>st</sup> and Paper 2<sup>nd</sup> will be held as per the following Schedule.

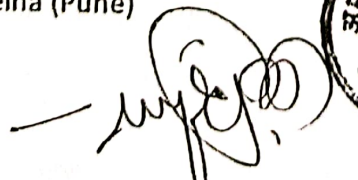

Subject	Day & Date	Time	Exam. Seat No.	Total Students
Business Communication Paper 1 <sup>st</sup>	Friday 18 April 2024	11.00 am to 2.00 pm	45641 to 45735	34
Business Communication Paper 2 <sup>nd</sup>	Friday 19 <sup>th</sup> April 2024	9.30 am to 2.30 pm	45643 to 45693	46
	Saturday 20 <sup>th</sup> April 2024	9.30 am to 2.30 pm	45994 to 45733	45

Note: 1. Students shall bring Exam Hall Tickets and College I-Card.

2. Students shall also bring and show their Practical Journal & Home Assignment Book.

Date : 13<sup>th</sup> April 2024

Place : Vinzar, Velha (Pune)
