(I.Q.A.C.)**

Clean and green campus Policy

The clean and green campus policy will ensure to improve the usage of the conventional energy resources and promoting sustainable energy resources. Implementation of environment and energy usage policy will make institute energy sustainable by reducing carbon emission.

- Maximum use of daylight for regular classroom purpose.
- Use of transparent roof sheets to reduce the need of light bulb requirement at the day time.
- Use of the LED bulbs in the campus
- Use of solar plant for outdoor lights
- Display of signboards implying energy conservation message around the campus.
- Use of the power efficient technology to reduce usage of energy consumption.
- Electrical and electronic devices should be kept off while not in use.
- Ban on the use of plastic in the campus.
